# ISHMap

The International Society for the History of the Map (ISHMap) advances the study of the history of maps and mapping in all societies and over all periods of time

- by promoting the education of the general public in the subject
- by promoting communication between members & non-members
- by promoting the research, teaching and funding of the subject

These tasks are carried out by the members of the society or in association with relevant organizations by means of publications, conferences, seminars, courses and other suitable methods at a university or other institution (e.g. library, archive or museum) worldwide. ISHMap activities and initiatives include:

**A Symposium** organized every two years since 2012.

**A Workshop** for young professionals every two years since 2022.

**H-Maps**, a free international digital forum in the historical study of the making, circulation, use and preservation of maps from the ancient to the contemporary period. Established in collaboration with H-Net in October 2019, <http://networks.h-net.org/h-maps>.

**Prizes in Map History** (established in 2020)

Best Paper Delivered live at the ISHMap Symposium by a Participant with a terminal degree (e.g., PhD, MLA, MFA, etc..).

Best Paper Delivered live at the ISHMap Symposium by a Participant without a terminal degree

Project in Map History (awarded in 2021) recognizes a project that increases accessibility and engagement with maps and map history through innovative presentation, rather than academic publication.

Annual dues are £20. Members may subscribe at a discount to *Imago Mundi*.

To learn more about ISHMap or to become a member of the Society, consult the ISHMap website, <https://ishmap.wordpress.com/>
